

## **C. Systemic framework for Soldier and Armed Forces**

# **C0. What is a systemic framework ?**

# Systemic framework principles

## #1 To describe the system

## #2 To remain global and integrated

- considering the system as a whole

## #3 To take 3 points of view

Black box – **external point of view**

*WHY is the system important? Who expects something from the system? Who imposes something to the system?*

Grey box – **functional point of view**

*WHAT does the system do?*

White box – **constructional point of view**

*HOW is the system made? What are the components of the system?*

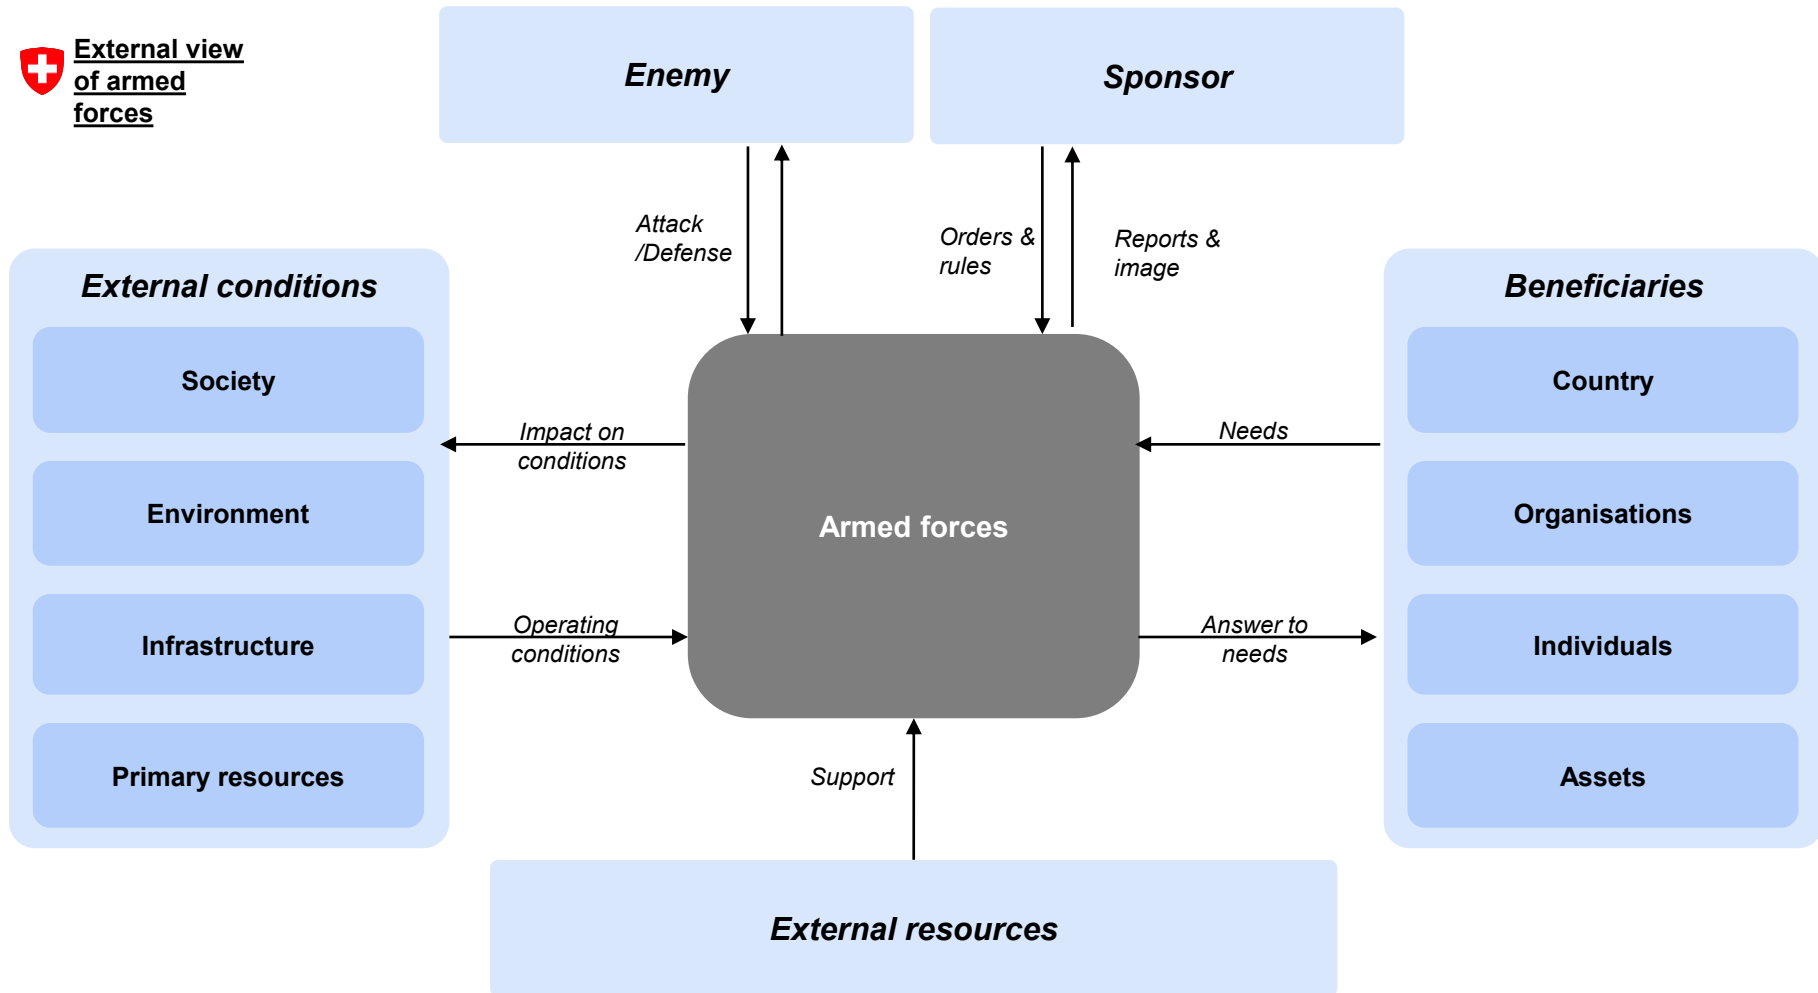

# ***C1. Modélisation systémique des forces armées***

## ***Systemic framework for Soldier and Armed Forces***

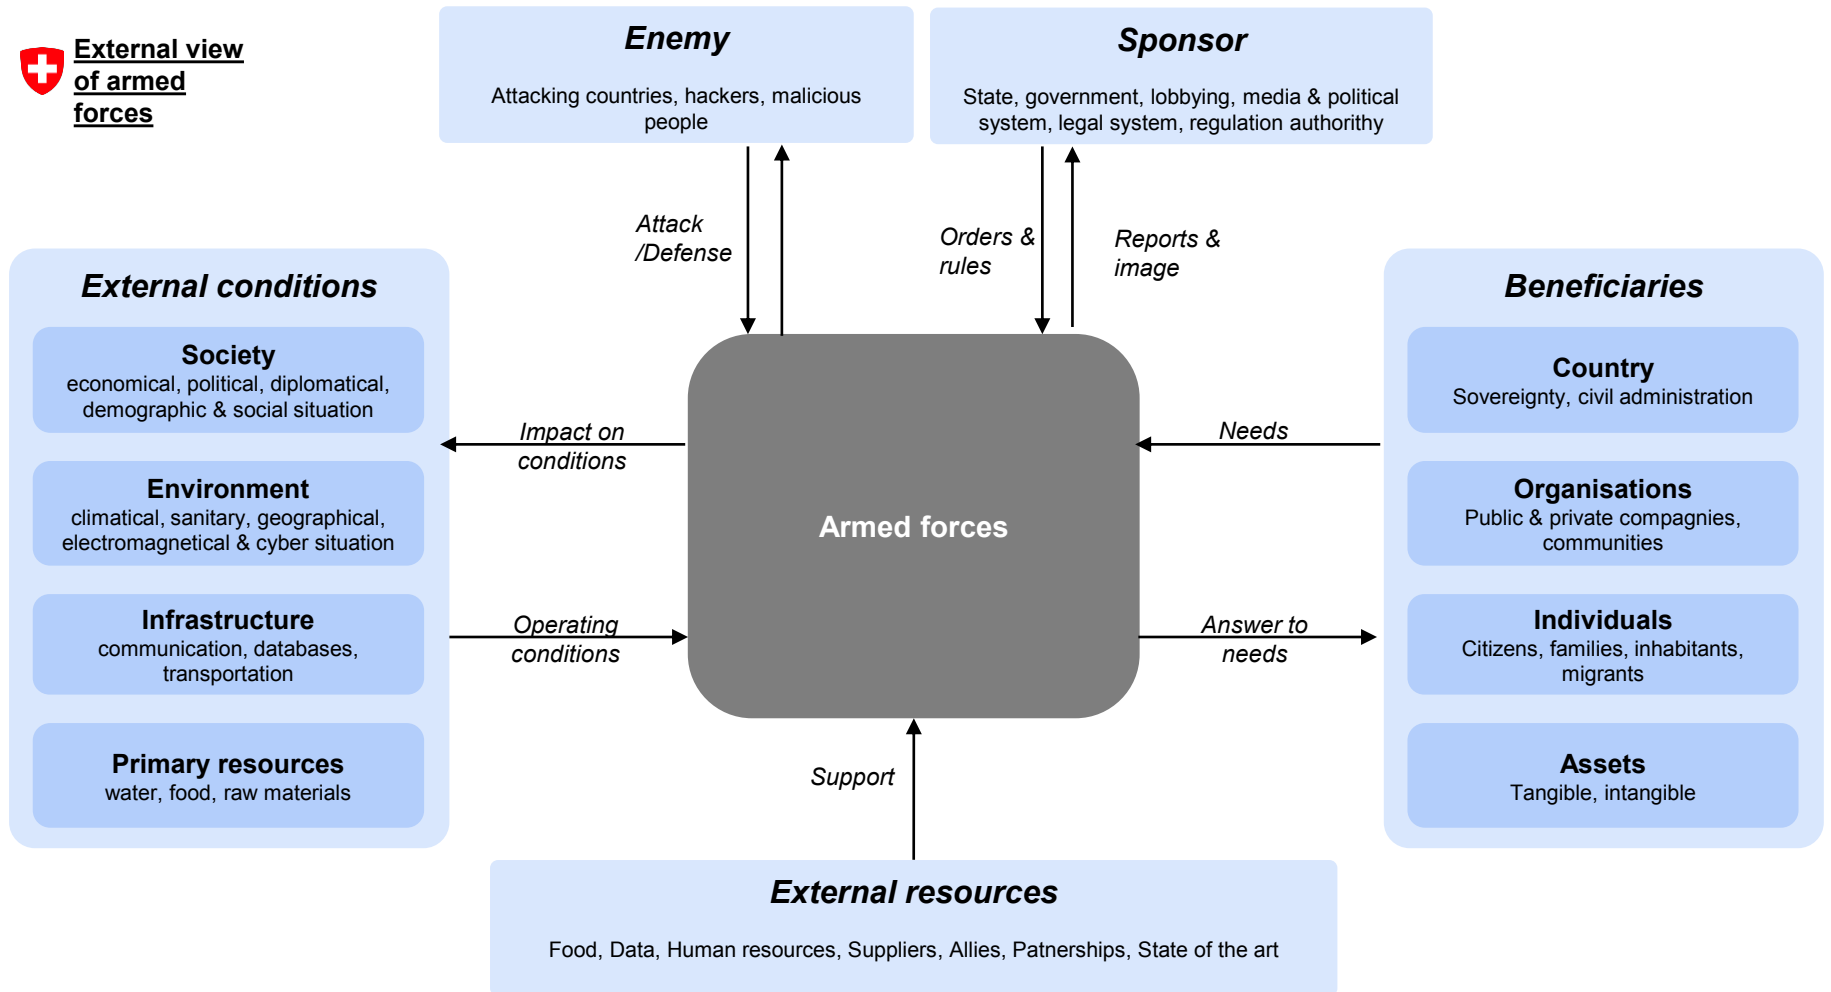

## External view of armed forces

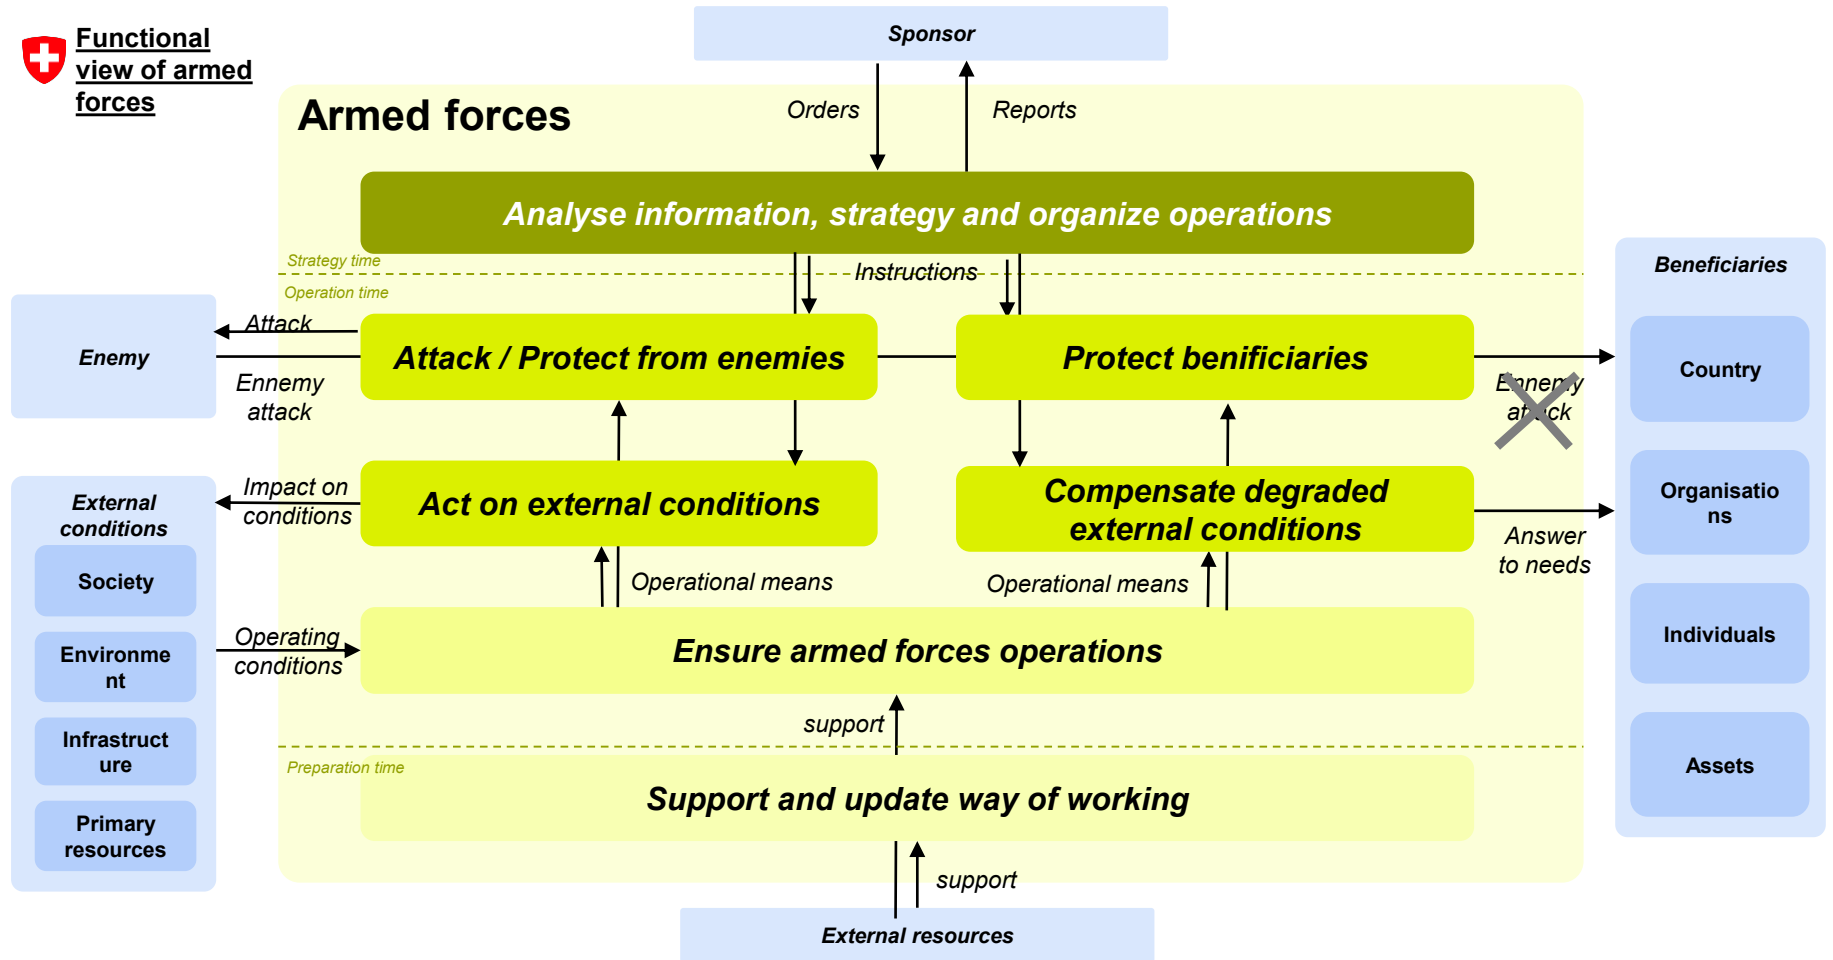

## External view of armed forces

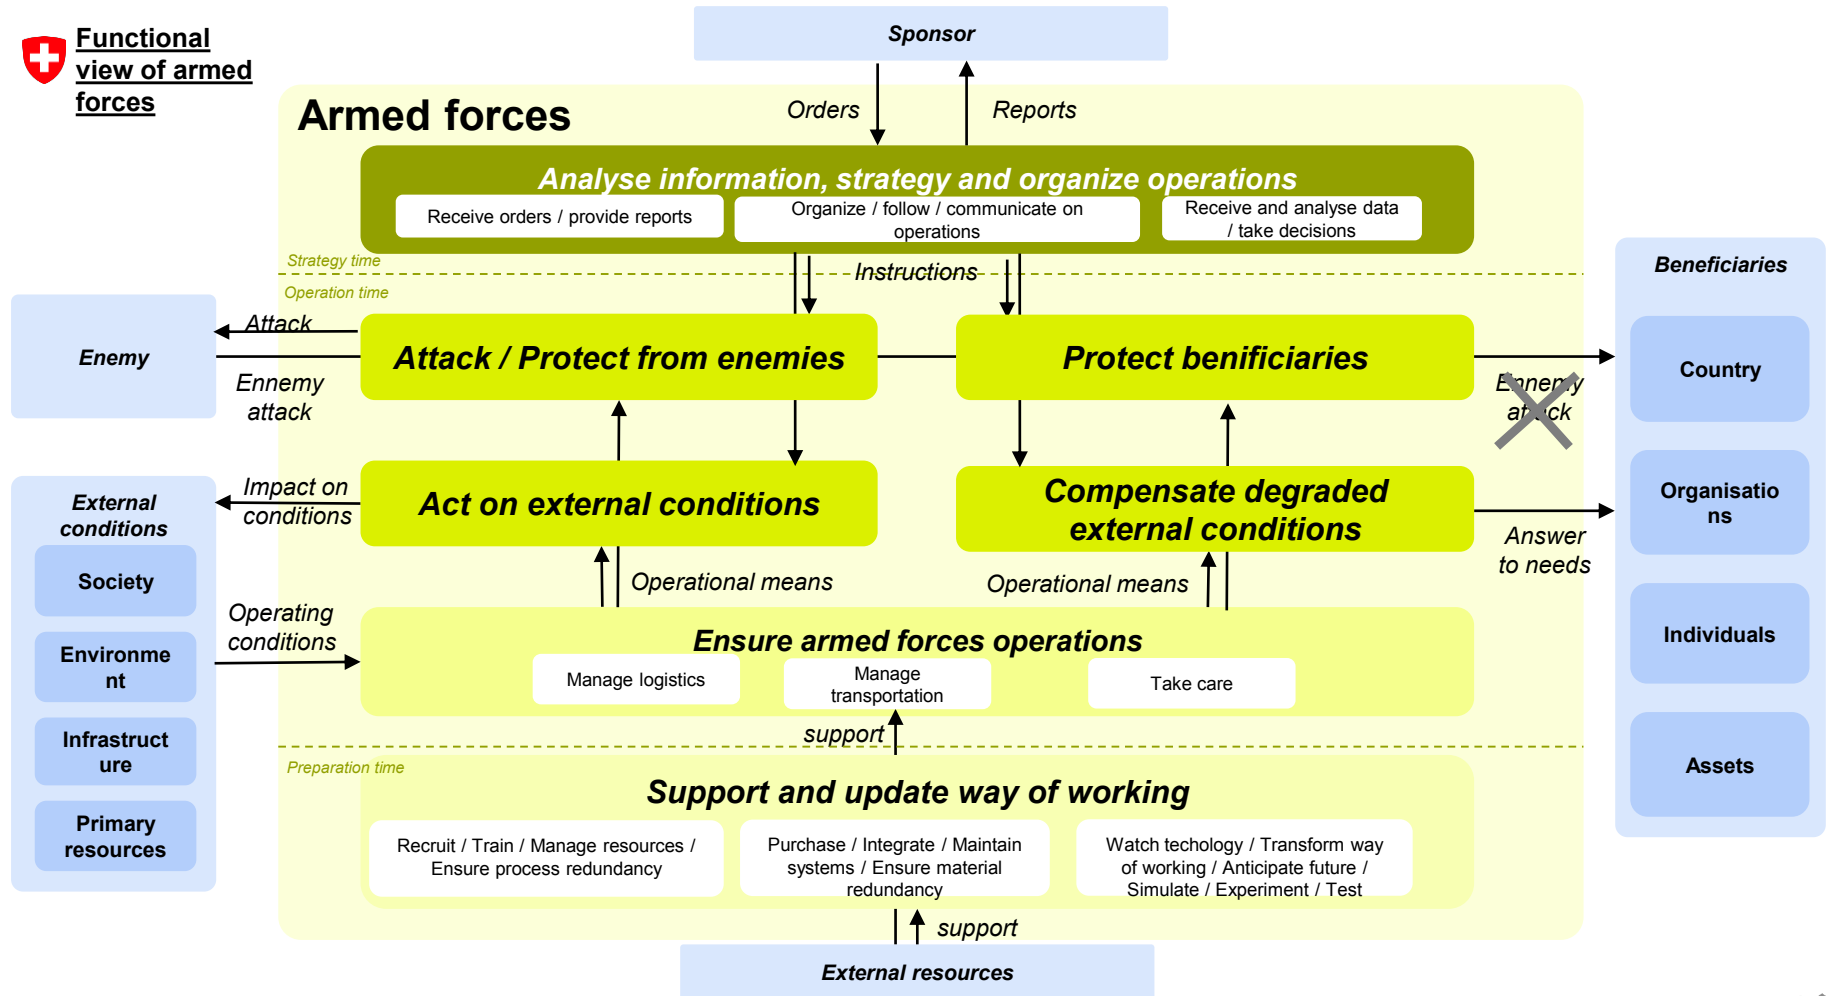

## Functional view of armed forces

## Functional view of armed forces

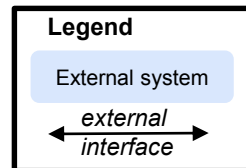

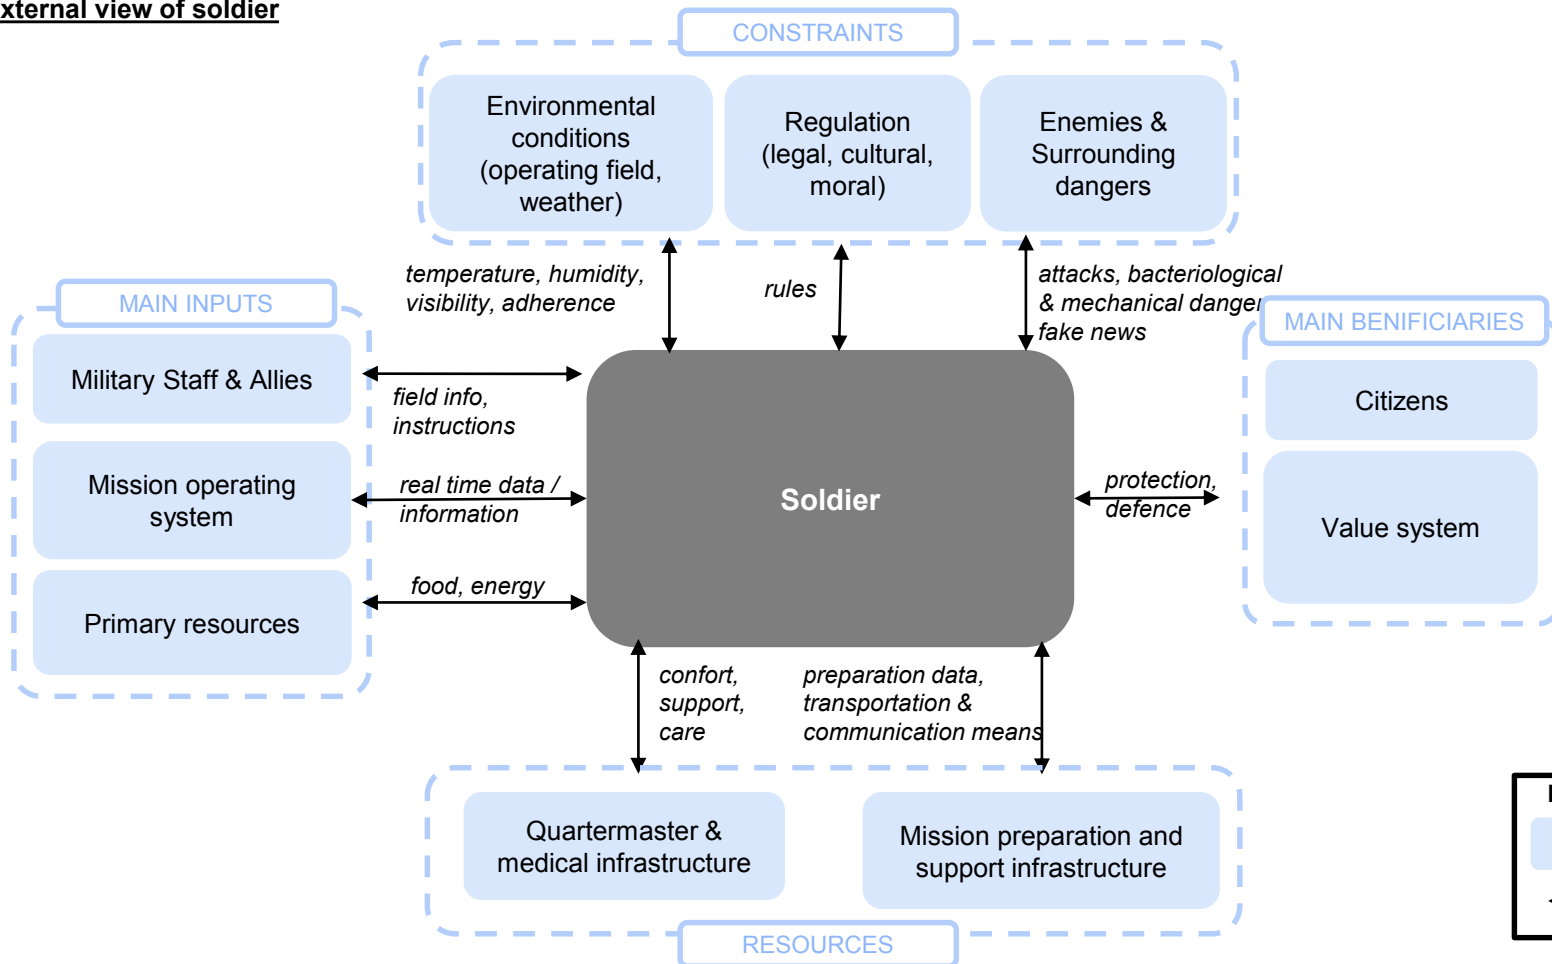

## **C2. Modélisation systémique du soldat**

*Systemic framework for Soldier*

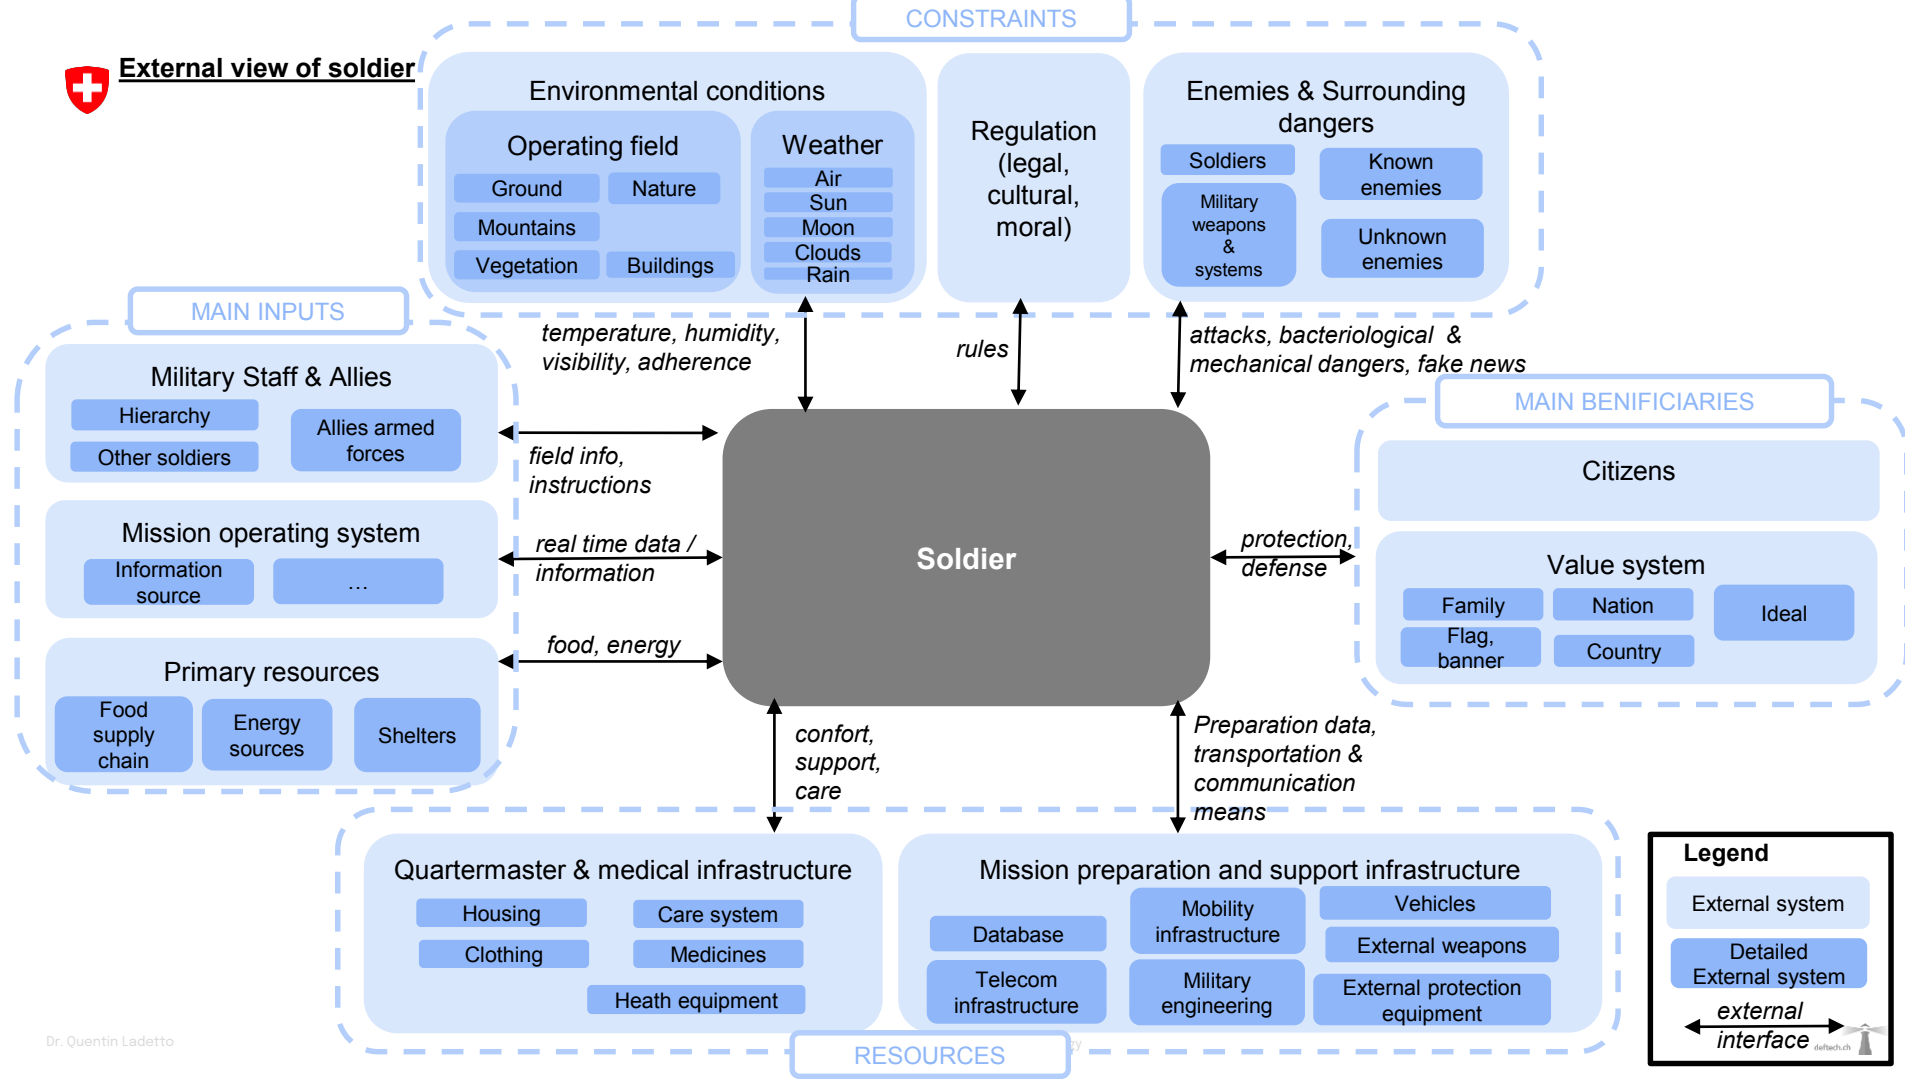

## External view of soldier

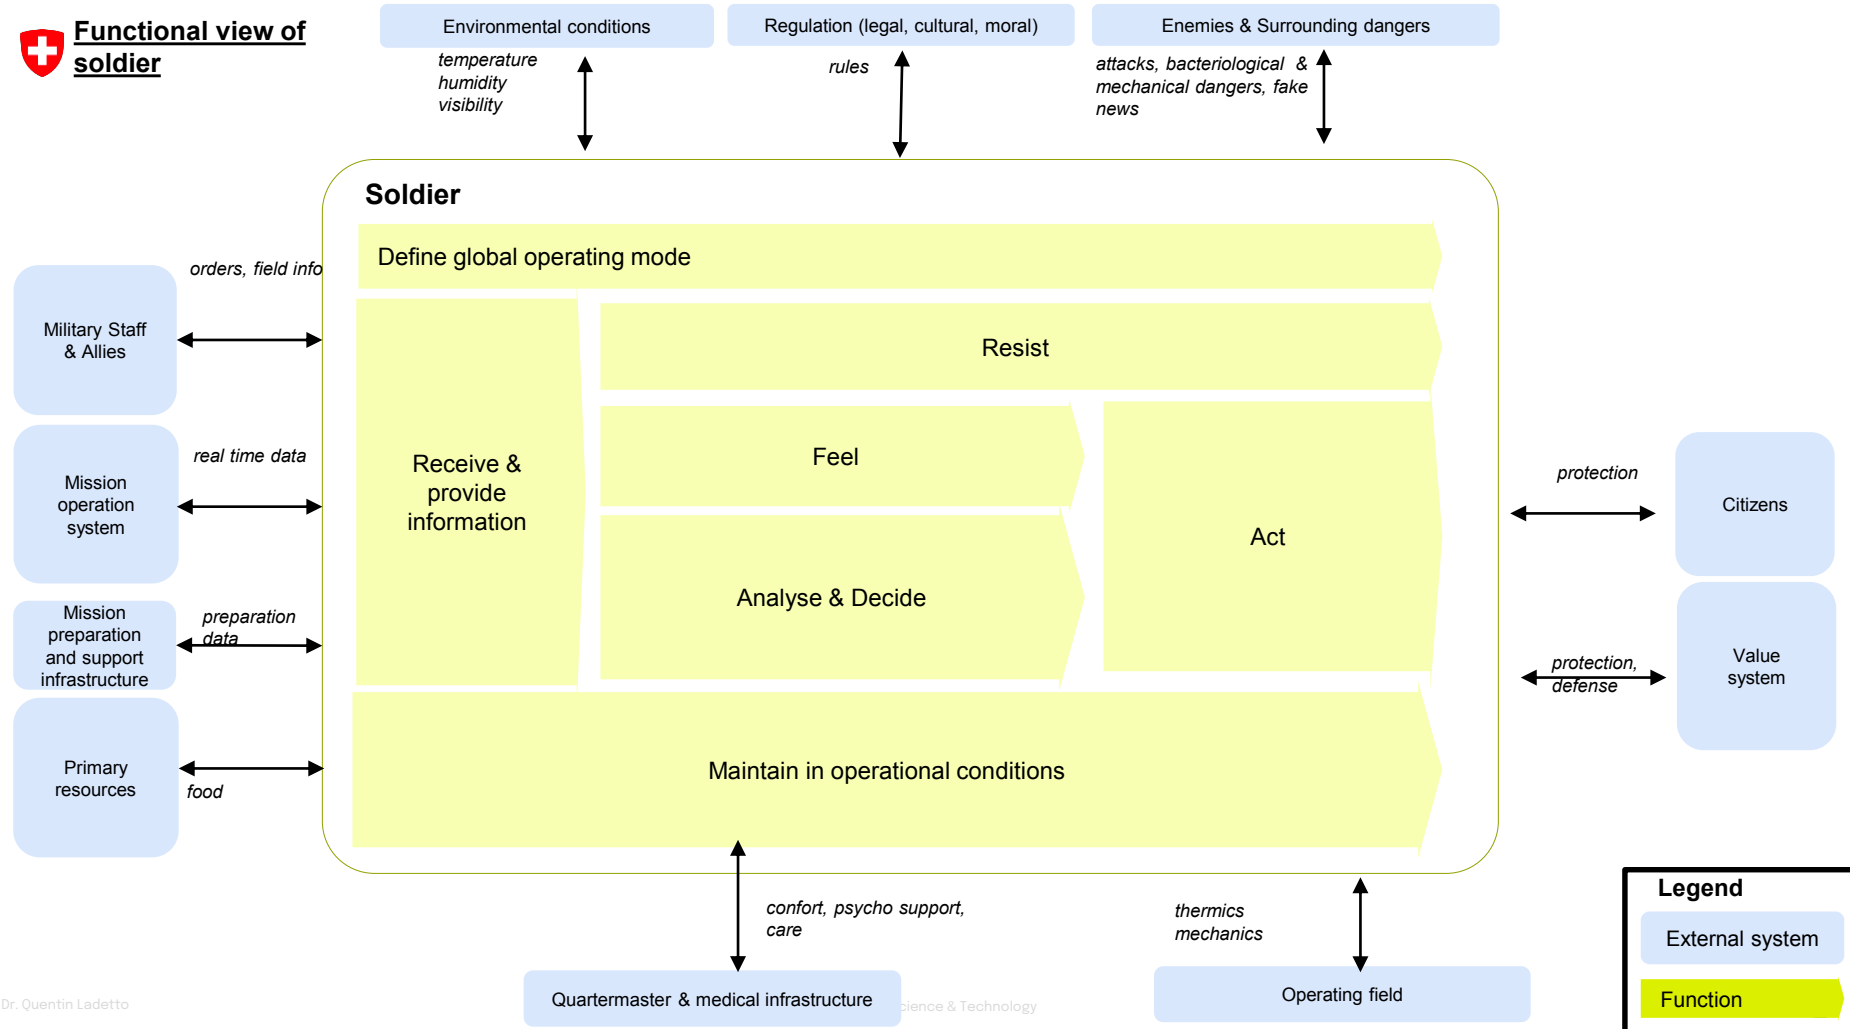

## External view of soldier

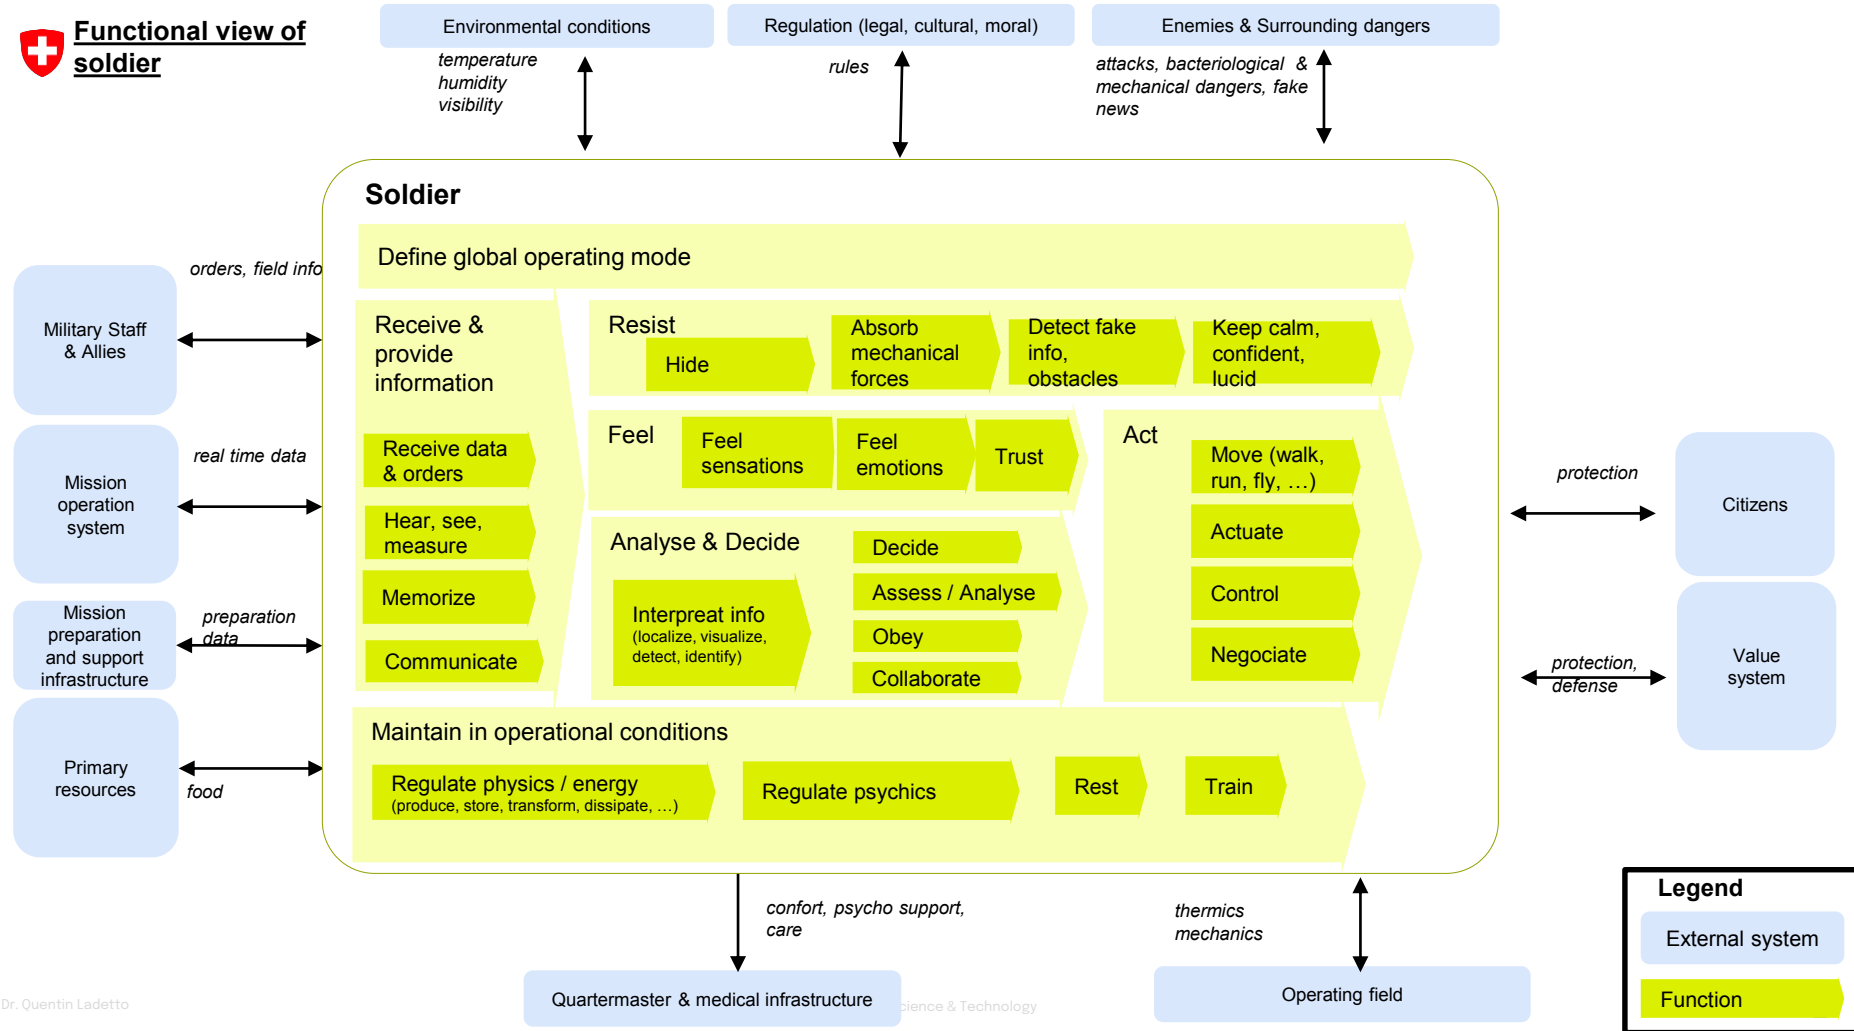

## Functional view of soldier

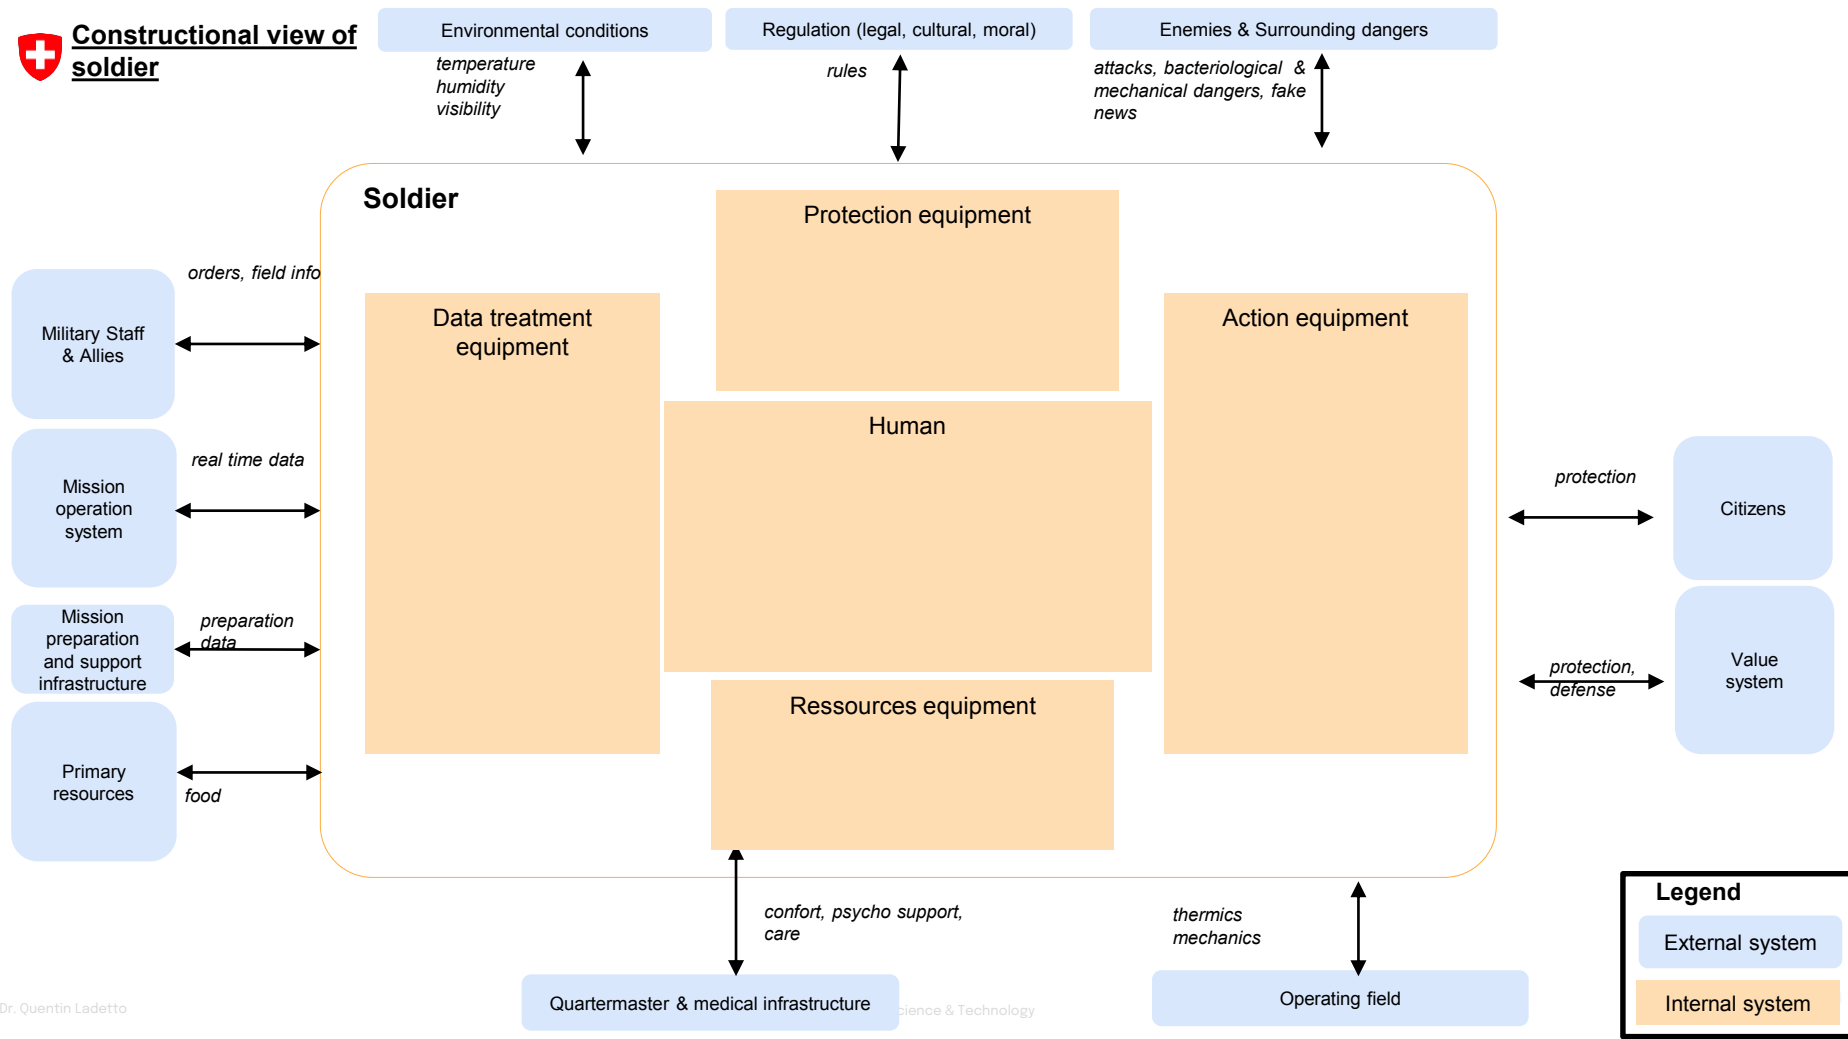

## Functional view of soldier

## **Constructional view of soldier**

## Constructional view of soldier
